

Shadows

Our shadows seems to follow us everywhere we go. Sometimes they are on the ground beside us. Sometimes they even climb the walls!

Sometimes they are small and hide under our feet.

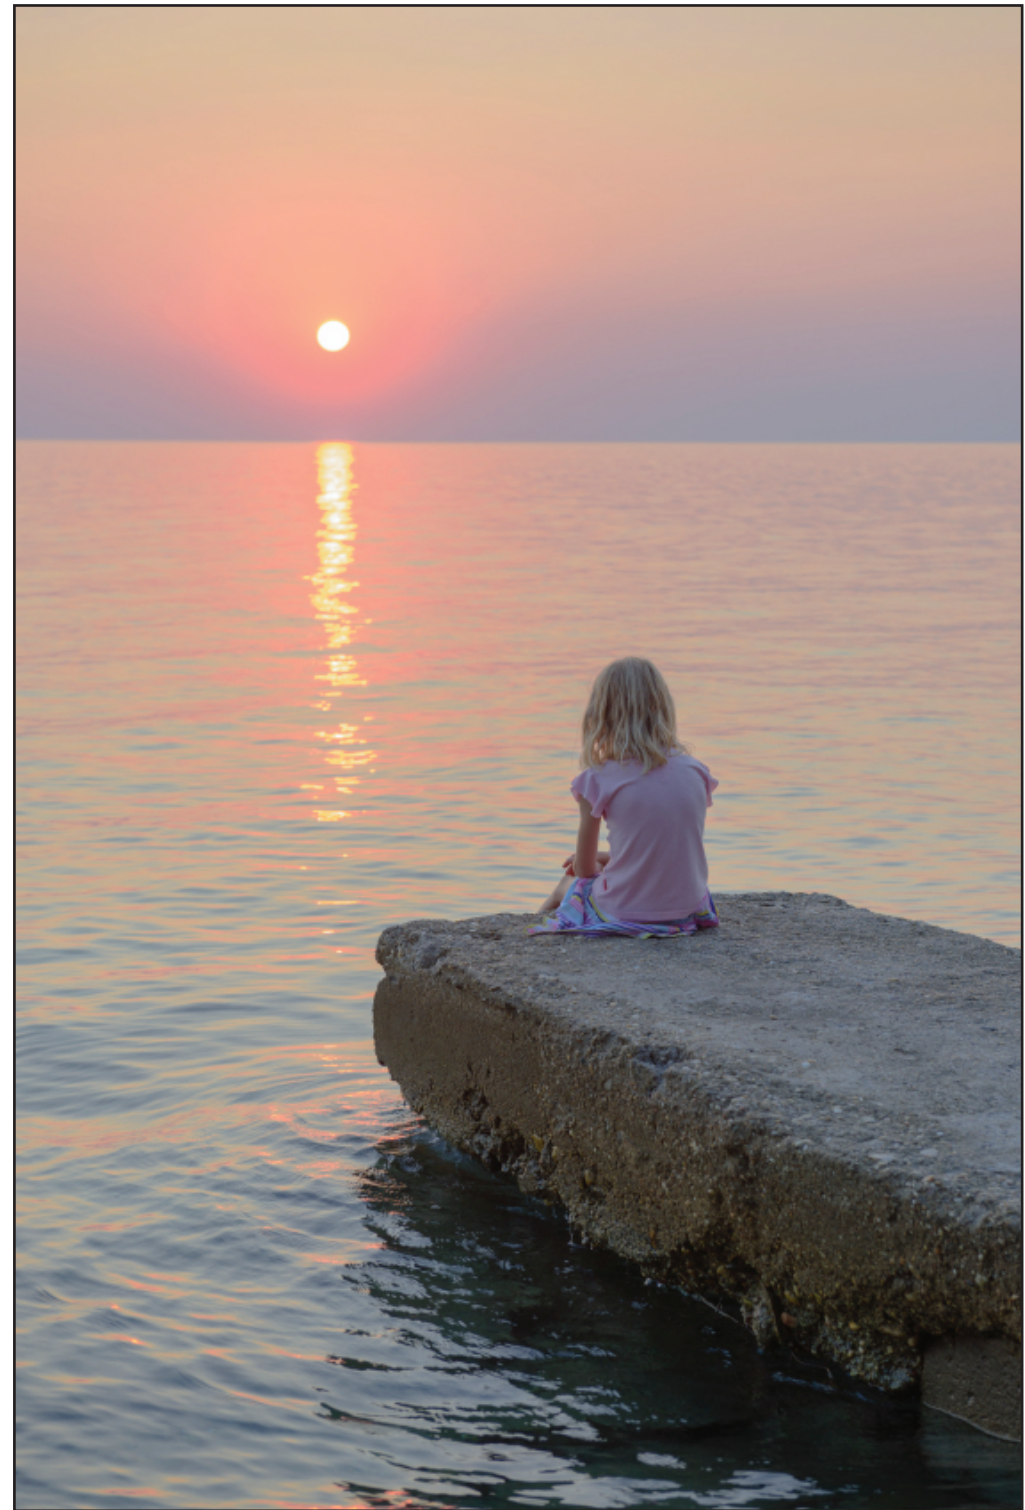

Study**ladder**

Sometimes they are long and stretch out beside us, copying our every move!

Sometimes they are bigger than we are!

But once the sun goes down my shadow disappears!.

But if I turn on the light I can play with my shadow!

Why do I have a shadow?
