

# Handball

Did you know that handball is an Olympic sport?

But not as most school children play it!

Handball has been an Olympic sport since 1972. (It was also part of the 1936 Olympics.)

The 2012 London Olympics Gold Medalists were:  
Men: France  
Women: Norway

As a class research the game. Watch a short video of the game being played.

Devise your own schoolyard version:  
As a class devise some rules and have game of handball similar to the game played at the Olympics. All you need are two goals, a ball and some rules. Have fun!
