1) Write an acrostic poem:

Think of words that are related to the spring season. They could be adjectives describing how a day in spring feels. They could be words describing activities you might enjoy doing on a day in spring. Select words that begin with each of the letters contained in the word 'spring'. Each line in your acrostic poem can consist of single words, if you like, or you can write phrases.

2) Decorate the border with spring inspired designs and colours.
