

Name: _____

Theme Based Study Sheet

Reindeer facts

Reindeer are mammals.

They are a large deer found in the cold areas of North America, Northern Europe and the North Pole.

Reindeer eat grass, moss and lichen.

A male reindeer is called a buck, a female is a doe, and a baby reindeer is a fawn.

A group of Reindeer is a herd.

Unlike most deer, both male and female reindeer grow antlers, but they shed their antlers every year.

Reindeer have large hooves that spread apart like snowshoes as they walk on the snow. This prevents them from sinking in the snow.

Do you know any more interesting facts about reindeer?
