

Compare and Contrast

Name:

Date:

When we compare we find similarities. When we contrast we find differences.

- Use a Venn Diagram to compare and contrast the features and habits of a platypus and an echidna. Write features that are unique to the platypus in the circle on the left. Write features that are unique to the echidna in the circle on the right. Note features that the platypus and the echidna have in common in the middle where the circles overlap.
