

# Painted Rocks: Design and Make

Study*ladder*

# Painted Rocks Designs

Think of a theme. Here is  
a list to get you started:

- animals
- sea life
- rainbows
- seasons
- fish
- butterflies
- family
- celebrations
- cartoons
- patterns
- food

Sketch some designs on paper to help you plan your paintings.

Use acrylic paint and fine brushes to paint your designs.

Once your paintings are dry, apply a final coat of PVA glue for a shiny finish.

When you have finished, don't forget to wash your paint brushes with warm soapy water. (PVA glue must be removed or the bristles will stick together when they dry.)

You could use your painted rocks as paper weights.

You could use them to stop serviettes blowing away at your next outdoor dinner party.

You could paint festive designs on them and use them as table decorations.

You could paint personalised place settings for your guests to take home.
