

Name:

Subtracting money

$$\begin{array}{r} £36.45 \\ -£24.25 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} £73.55 \\ -£33.40 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} £48.70 \\ -£36.85 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} £94.35 \\ -£68.45 \\ \hline \\ \hline \end{array}$$

$$£43.45 - £26.80 =$$

$$£52.30 - £37.85 =$$

The prices for each item are shown.

shorts

£16.45

boots

£28.15

hat

£14.95

shirt

£32.50

jumper

£46.85

What's the difference in price between the least and most expensive item? _____

Anna bought a hat and a pair of boots. How much change did Anna get from £50? _____

During a sale, all shorts are reduced by £7.50. How much do the shorts cost during a sale? _____

Sam is saving to buy a shirt and jumper. If Sam has £22.50, how much more does he need? _____

Circle the equations that equal less than £50.

$$£83.25 - £45.75$$

$$£76.00 - £37.40$$

$$£78.50 - £27.75$$

$$£92.75 - £47.25$$

$$£95.30 - £44.50$$

$$£105.00 - £56.05$$
