The Community Garden

Imagine your town has set up a community garden. Volunteers meet regularly to help care for the garden. Some people can come daily. Others come once a week or just a few times in a month. Together, the volunteers have built the most fabulous garden. The whole community shares the produce that is grown. It is a great way to meet people and learn from more experienced gardeners!

Describe one aspect of working in the community garden.

Questions to think about

What kinds of words will you choose to describe the ground and the plants?

What kinds of words can be used to describe the actions of the jobs?

What tools are needed for the different jobs in the garden?

How would you describe the people working in the garden?

What tools are needed to work in the garden?

The jobs include:

digging the soil

spreading compost

planting seeds

raising seedlings

watering plants

pruning old growth

removing weeds and pests

picking flowers, fruit or vegetables
