Theme Based Study Sheet

Dingo facts

The dingo is an Australian wild dog. It is an intelligent and inquisitive canine.

Most Australian dingoes are ginger or sandy coloured with white chests. However, there are some dark coloured dingoes.

Dingoes cannot bark, but they can howl.

A dingo can turn its head through almost 180 degrees in each direction.

A dingo breeds once a year and usually has three to five pups.

Do you know any more interesting facts about dingoes?

Adjectives

Adjectives are words that add information about a noun or pronoun.

Select the most suitable adjective.

Dingoes have a _____ tail and they have _____ ears. They usually have a soft _____ coat. Purebred Dingoes have _____ hair on their feet and tail tip.

white

erect

yellowish

bushy

The Dingo Fence

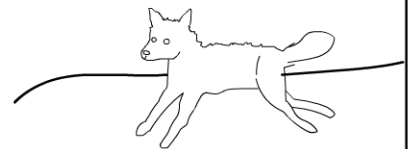

A famous "dingo fence" was erected in the 1880s to keep dingoes out of the south east part of Australia and to protect the sheep flocks of south east Queensland. It is over 5500 km long and the world's longest fence .

Mark the Dingo Fence on the map of Australia.

Number Crunchers

Scientists recorded the number of dingoes in 6 different packs found in one area.

- Pack A - 9 dingoes.
- Pack B - 12 dingoes.
- Pack C - 7 dingoes.
- Pack D - 5 dingoes.
- Pack E - 9 dingoes.
- Pack F - 12 dingoes.

What is the total number of dingoes in Pack A, B and C combined?

What is the total number of dingoes in Pack D, E and F combined?

Write the dingo packs in order from largest to smallest.

What is the total number of dingoes?

Wombat Stew

Read the story "Wombat Stew" by Marcia K. Vaughan. It's about a dingo that catches a wombat and wants to cook him in a stew.

Write your own version of this story. Change the characters and the setting.
